STOCKS VERY ACTIVE

ALMOST A SCRAMBLE FOR SECURI-TIES TOWARD THE CLOSE.

THE EFFECT OF DEWEY'S VICTORY.

It Has Aided in the Counting on an Early Termination of the War-May Wheat \$1.70 a Bushel-Largest Check Ever Made.

NEW YORK, May 7.-Stock-brokers had a busy two hours during the session of the Exchange to-day. The market was keenness of demand for stocks gathered the close. Occasional offerings by operators, content to take their very substantial profits, were swallowed up, with almost no effect on prices. The elements of apprehension which had caused the reaction at the close yesterday were cleared up. The release of the Lafavette eliminated the fear of a complication with France over her selzure. The reported announcement of the arrival of the Mc-Culloch at Hongkong, with dispatches from Admiral Dewey relieved the natufelt over the prolonged delay, in re-

The continued excitement and advancing prices in wheat gave added strength to the stocks of railroads running through the wheat belt. The bank statement was also interpreted as dis-

tinetly favorable.

The force of the upward tendency of prices was remarkable in the second hour, and the day's net gains range be-tween 1 and 3 points for most of the leading stocks.

DEWEY'S VICTORY.

The animation and strength of the stock market during the week has been in strong contrast to the lethargy of the early part of last week. It is an old established maxim of markets that a naval or military victory will result in a rise Commodore Dewey's victory, in its com-pleteness, and the thoroughness with which the work was done, would naturally be particularly forceful. The demonstration it gave of the inacapacity of the Spanish naval resources, and the deoralized condition of Spanish financial and governmental affairs at home, which has followed, make an early termination of the conflict to be counted on. But it is in the favorable conditions at home, which will be given full play by the end-ing of the war, that the stock market has found its greatest ground for confidence in the future. The week's developments in the wheat market alone give the brightest promise for the future growth of prosperity in this country.

MONEY AND BONDS. The week's developments in the money market show that the long process of preparation to meet the country's war-needs has been completed. The period of contraction and timid piling up of reserves is over, and the conditions made

in lending money are more liberal.

The bond market has fully shared in the activity and strength of the stock market, and prices are higher all around. United States new 4's have advanced, 3 3-4; old 4's, registered, 1 3-4; 5's, coupon 11-2; old 4's, coupon, 1, and the 6's, regis-

FINANCIER COMMENTS.

The New York Financier says: For the

first time since the destruction of the battleship Maine the loans of the New

York clearing-house banks show an increase. It became evident as the week progressed that dealings in mercantile

paper were on a more liberal scale, but the increase in the loan item is probably

for the most part due to borrowings in-

cident to the revival on the Stock Ex-change. While the increase was less than

loans of the New York banks since Feb-

This is a decline of 1-16c, from previous quotations, and it is 1-8c. below the Fail River quotation. Staple cottons of all sorts are quiet, in conformity with the eastern markets. Bleached goods are in quiet demand. Export lines are not bought freely, and the demand for wide sheetings and drills, for domestic use, shows no change. Other brown goods are quiet. Coarse colored cottons are firm. Outside of the government demand, there is little call for any, except certain more staple lines.

A LIVELY STREET FIGHT

Between Roanoke College Students and Members of a Volunteer Co. SALEM, VA., May 7 .- (Special.)-A

lively street fight occurred here to-day between students of Roanoke College and members of the Jeff Davis Rifles, the local military organization. The fight RHEUMATISM, GOUT, NEURALGIA grew out of an article inserted in a local paper by a student, reflecting upon the company. One of the military boys re-ceived some very ugly bruises on the face, inflicted by a red-hot soldering-iron in the hands of one of the students. The combatants were separated by citizens. Further trouble, however, is expected, as challenges are being sent by those their war paint on, and the air is filledwith rumors and threats.
